# Proto Layers

Advancing modular
blockchain technology

- 30.5. 2024
- ETHPrague side event

—> About

Proto Layers Conference aims to bridge the gap in the market for technically-oriented crypto events. We bring together researchers, developers, and blockchain specialists to increase collaboration and drive innovation in modular blockchain technology.

- Consensus mechanisms
- Execution environments
- Cross-chain protocols
- Zero-knowledge proofs
- Scalability solutions
- Governance and upgradability
- Hardware acceleration for ZKPs

Highlights

of Proto Layers conference

Date	**May 30**
Projects	**15+**
